Notes***
Public hearing held 2/14/19, comment period extended to 3/18/19.
Coordinating with AED on workgroup, no decision made at EG on if NSR changes will move forward as part of the rulemaking or as a separate action. Request for waiver of Analytic Blueprint received 2/28/19. OS mtg request for late wk of 3/11 or early wk of 3/18.
Katie Owens participated in EG, OS and FAR for the NPRM. Concurred with NS comment.
At OS, supported the Regions in recommending work practices
John Cox participated in OS in Jan 2019 for the NPRM. FAR materials are being developed, with no date set at this time. Updates will be provided as they become available. Signature of NPRM is set for May 2019, however may be pushed back due to the large number of RTRs.
John Cox recently participated in OS (part 2 of 2). There is no date set for FAR at this time. Workgroup is continuing to meet to discuss OS options. Signature of proposal is set for July 15, 2019.
Expedite FAR has been proposed. OAQPS working with OECA and Regions to address relevant compliance issues (fire prevention enforceable approach and clarify malfunction requirements for gas collection and control systems that addresses fixing it as soon as practical.
NPRM published 10/15/18
Recommend concur with comment at OD level.

Option Selection for the Steam Electric Effluent Guideline Reconsideration Rule
Organic Liquids Distribution RTR
Pesticides; Certification of Pesticide Applicators Rule; Reconsideration of the Minimum Age Requirements and Pesticides; Agricultural Worker Protection Standard; Reconsideratio of Several Requirements and Notice About Compliance Dates
Reclassification of Major MACT Sources to Area Sources (OIAI)
Revisions to the SDWA Lead and Copper Rule
Site Remediation NESHAP RTR
